

# AN ANTI-RACIST AGENDA

2021

[WWW.POLYPAGES.ORG](http://WWW.POLYPAGES.ORG)

The Poly Pages anti-racist agenda for 2021 makes explicit, measurable and time-limited actions which make up our anti-racist agenda for 2021. We invite accountability against these action items.

1/ Effective on 01/01/21 we are suspending our call for hosts who are white. We are only going to feature guest hosts who are persons of colour. We will continue this until we feel our global and diverse following is represented in the people we are featuring.

2/ In 2021 we have launched our research hub and are asking persons of colour (PoC) to answer calls for participation. Our long time listeners will know that we always discuss race in our critiques of the literature. Research which draws on surveys that white people participate in more often than PoC, over-represents white polyamory in the studies and this is not OK.

3/ In 2021, we will be putting together a new Limited Series called #decolonisenonmonogamy, to explore the many faces of non-monogamy around the world and in different cultures.

4/ We have collaborated with polyamorous and anti-race educators to produce a resource entitled CNM skills for Anti-Racist work (available on our library). Racism is a white problem and we need to be proactive in dismantling it, so we ask that all our white followers use this resource to become better allies.

5/ Poly Pages will decline partnership or promotion with any brand, company or corporation that does not have a public statement in support of BLM and with a clear anti-racist agenda.

6/ Poly Pages for-pay events will be supported with sliding scale prices, and speakers will have the opportunity to negotiate pay against a disparity-informed index.
